A Thankful Gift: Egg Donation

Every year in the U.S., millions of loving couples will never know the joy of holding their own child without the help of a reproductive specialist. Yet as skilled as a reproductive endocrinologist might be, even he or she needs help from a woman willing to help an infertile couple by donating her healthy eggs.

"Age is single biggest cause of female infertility resulting in a lower quality or quantity of oocytes and egg donation is a profoundly benevolent gesture," says Dr. Bruce Shapiro. The process requires a commitment on behalf of the donor to ensure compatibility and health, but it is often the ultimate gift for a couple. As one patient thankfully notes, "It has been a wonderful decision for me...I couldn't feel more like she is my own daughter."

Think egg donation is the answer to your infertility? Call our center to explore your options. And if you're a healthy woman between the ages of 18 and 30 who wants to explore helping a couple achieve their family dream, [click here for more info.](#)

How Can I Help You?

"Our financial service representatives help patients with all the financial aspects of infertility treatment. First we will call the patients' insurance company to determine coverage for both diagnostic and treatment. We will explain the benefits to the patient, bill the insurance company, appeal any denials if necessary, and provide financing options. We like our patients to be fully informed so they can be prepared for their treatment cycle physically, emotionally, and financially. Let me know how I can be of assistance to you."

Annual Reunion Raises \$6,000 for Center for Independent Living

Drs. Bruce Shapiro, Said Daneshmand, and their staff welcomed nearly 1,000 of their most favorite people during the 19th annual Gifts of Life Reunion and Fundraiser. "It's so touching to see these couples have an opportunity to enjoy simple pleasures with their children," noted Dr. Daneshmand whose comments were followed by Dr. Shapiro, "We're grateful for every patient and every year when we can share an afternoon to celebrate."

Patients were overwhelmingly generous in bringing items for the homeless teens at The Center for Independent Living resulting in over

\$6,000 in donations. Special congrats go to Nicholas "the shark" and winner of the outrageous swimsuit

contest, and the lulucci family who won a weekend for four to Disneyland. For more details and pictures, [click here!](#)

Gratitudes

"Thank you for a wonderful time today! The location was perfect and of course the company was as well!!! Every year our spirit is nourished beyond words just by being around and connecting with what we believe is our extended family. The both of you are true angels here on earth."
– The B Family

November 28
