THE FERTILITY CENTER OF LAS VEGAS

SEPTEMBER 2007

Its Conceivable Podcast Launches

The Fertility Center of Las Vegas is proud to have launched the Its Conceivable podcast, an ongoing series of broadcasts featuring Drs. Shapiro and Daneshmand addressing all facets of fertility.

The first installment is currently available online at ItsConceivable.com and talks about the basics of infertility. According to Dr. Daneshmand, "We recognize that many people have questions about fertility but don't know where to start. Our goal is to provide convenient and easy to understand information through this medium so that couples can feel comfortable with how to proceed."

New programs will be posted to the ItsConceivable.com and FertilityCenterLV.com websites weekly. A downloadable icon will be available allowing subscribers to have the podcast fed to their computers or PDA's. Topics will be predicated by both the issues expressed by the center's patients as well as the questions posted to the website.
